3D Systems Celebrates Its Italian Expansion

- Integrates Latest On-Demand Parts Technology And 3D Printer Business Operations Into A State-Of-The-Art Facility -

Rock Hill, South Carolina – March 14, 2012 - [3D Systems](#) Corporation (NYSE: DDD) announced today that it completed its expansion and consolidated all of its activities in Italy into modern facilities in Pinerolo for enhanced customer service and increased efficiency.

Central to this investment is the expanded on-demand parts operation which boasts a full complement of 3D Systems' latest production printers and materials, including the [iPro™ 9000XL](#), an SLA® system capable of printing a full size automotive dashboard in a single piece. As part of its expanded scope, 3D Systems Italia opened a brand new showroom featuring the company's complete portfolio of [personal](#) and [professional 3D printing systems](#) for customer demonstrations as well as technical training.

"We are pleased to integrate the power of our latest generation of 3D printers with our Italian operations into a central and modern facility for the benefit of all our constituents," said Kevin McAlea, Vice President and General Manager, 3D Systems. "This new facility clearly demonstrates our complete 3D content-to-print capabilities and provides the perfect setting to effectively service and support our growing base of 3D Systems' customers in Italy."

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
