## 3D Systems Brings Full Printer Portfolio To Anvil

- Local Reseller Delivers Full-Line Of 3D Printers To Its Customers -

**ROCK HILL, South Carolina, March 20, 2012** – 3D Systems Corporation (NYSE:DDD) announced today that Anvil Prototype & Design, a leading provider of technology services and solutions has added [ProJet™ 3D printers](#) to its portfolio. With a qualified team of experienced sales professionals and support engineers, Anvil now offers immediate access to [3D Systems'](#) entire lineup of high resolution, high speed, full color personal and professional [3D printers](#).

"We are delighted to expand Anvil's role in our growing network of 3D content-to-print solutions resellers," said Michele Marchesan, Vice President of Sales, Personal and Professional Printers, for 3D Systems. "Anvil's expertise in CAD and 3D printing sales and services makes them uniquely qualified to provide our complete portfolio of 3D printers to their growing customer base."

"The ZPrinter® line of breakthrough, full-color products have played a critical role in our success in the highly competitive 3D printing and prototyping industry," said Anvil Managing Partner Bill Watson. "We look forward to complementing our existing portfolio and enhancing our service by delivering all the 3D content-to-print solutions that 3D Systems is known for to our customers."

**About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
