## 3D Systems Expands Digitizer Offering Into Non-Destructive Testing

- Launches Innovative New Affordable Industrial Digitizer

**ROCK HILL, South Carolina, April 24, 2012** – 3D Systems Corporation (NYSE:DDD) announced today the immediate availability of the [VIDAR NDT PRO™](#), a new Non-Destructive Test (NDT) X-Ray Film Digitizer, answering the call for effective aerospace, defense and energy products and plants testing and compliance requirements.

The [VIDAR NDT PRO™](#) provides an affordable, precise and automated imaging solution for non-destructive test records using VIDAR's next generation proprietary digitizing technology.

"The VIDAR NDT PRO™ is a real breakthrough solution for aerospace, defense and energy companies that are required to conduct and record non-destructive testing," said Cathy Lewis, Vice President Global Marketing for 3D Systems. "We are excited to deliver to our customers in these growing verticals effective imaging and archiving tools that improve the performance, safety and quality of their products."

### **About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions

are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.

More information on the company is available at [www.3DSystems.com](http://www.3DSystems.com).
