3D Systems Moving to the New York Stock Exchange

– Ticker Symbol “DDD” on the NYSE –

Rock Hill, South Carolina – May 13, 2011 – 3D Systems Corporation (NASDAQ: TDSC) today announced its pending transfer of the listing of its common stock from the NASDAQ Global Select Market (“NASDAQ”) to the New York Stock Exchange (“NYSE”). The company expects to begin trading on the NYSE on Thursday, May 26, 2011, subject to the satisfactory completion of its listing on the NYSE, under a new ticker symbol “DDD.” The company expects to continue to trade under the ticker symbol “TDSC” on NASDAQ until the transfer is completed. The company is planning to ring the opening bell of the NYSE on May 26, 2011, which will be broadcast live on the company’s website.

“The New York Stock Exchange is the ideal platform for our continued growth strategy and global expansion plans,” said Abe Reichental, President and CEO of 3D Systems. “This move is consistent with our brand equity and reflects our commitment to democratize access to 3D content-to-print solutions for the benefit of professionals, consumers and stockholders alike.”

“We’re honored that 3D Systems has chosen to list on the New York Stock Exchange,” said Scott Cutler, EVP and Co-head of U.S. Listings and Cash Equities, NYSE Euronext. “Since its founding 25 years ago, 3D Systems has been a leading innovator that’s evolved into a global technology company. Our strategies are aligned, and we look forward to a successful, lasting partnership with 3D Systems and its shareholders.”

In conjunction with its listing transfer to the NYSE, the company plans to hold an analyst and investor meeting on Thursday, May 26, 2011, at 11:30 a.m. EDT at the New York Stock Exchange, 2 Broad St, New York, NY. To register for the event, use the online registration link available under the [Investor Relations](#) section of 3D Systems' web site.

For remote participants, a live webcast of the analyst and investor day presentations will be available on 3D Systems' web site under the Investor Relations section at www.3dsystems.com/ir. Participants are encouraged to visit the web site early to register for the webcast.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual

results to differ materially from those reflected or predicted in forward-looking statements.

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials, printable content downloads and on-demand custom part services for professionals and consumers alike. Its expertly integrated solutions reduce the time, cost and complexity of designing and manufacturing new products and printing real parts directly from digital input. These solutions are used to design, communicate, prototype and produce functional end-use parts; customers create with confidence.
