3D Systems Brings “Smarter 3D Printing” Seminars To Your Area

- Interactive, Informative Events Provide Local Entrepreneurs & Professionals Access To Latest 3D Printers and Capabilities

ROCK HILL, South Carolina –June 28, 2012 – [3D Systems Corporation](#)

(NYSE:DDD) announced today “Smarter 3D Printing,” an interactive and informative seminar series for entrepreneurs and professionals to experience the latest 3D printers in action and explore the benefits of 3D Systems’ end-to-end, 3D content-to-print solutions and services. These seminars provide immediate access to powerful ideation-to-production tools and services and are offered July through September 2012 at participating 3D Systems’ partner locations across North America ([more info/register](#)).

“Smarter 3D Printing” simplifies the complex 3D printing landscape, highlighting the power of accessibility, affordability and choice. 3D Systems offers the broadest range of 3D printing solutions, removing sourcing and integration complexity and delivering substantial time and cost savings. The seminar series is ideal for design and manufacturing professionals as well as business leaders and entrepreneurs seeking to infuse innovation and competitive advantage into their operation. Participants will learn:

- How to choose the right solution for virtually any application
- The capabilities and affordability of [ZPrinter® and ProJet™ 3D printers](#)
- The inside scoop on next-gen ZPrinter® 850 and ProJet™ 3500
- How to complement in-house 3D printing with Quickparts® on-demand services
- How to save money with unified training and support across all products

“Summer is a great time for professionals to catch up on emerging trends, network with local colleagues, and make strategic investments that offer a solid financial

return,” said Michele Marchesan, 3D Systems Vice President, Global Sales, Personal and Professional 3D Printers. “We’re making it easy by bringing “Smarter 3D Printing” to you.”

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
