## 3D Systems and DesignPoint Join Forces

- Award Winning Reseller Adds Leading 3D Printers to Its Portfolio -

**ROCK HILL, South Carolina, September 14, 2011** – 3D Systems (NYSE:DDD) announced today that it added DesignPoint, a recognized SolidWorks reseller and service provider to its growing network of 3D printers and solutions providers.

DesignPoint's experienced sales and service professionals carry the highest levels of certification and deliver a comprehensive suite of engineering solutions to the Northeast and Mid-Atlantic states. The company's customer focused offerings of design, engineering and manufacturing services have garnered SolidWorks' #1 North American Customer Satisfaction Award for two consecutive years. DesignPoint now offers local access to the entire lineup of [3D Systems'](#) personal and professional [3D printers](#).

"We are pleased to add a professional and recognized reseller of the caliber of DesignPoint to our network. With the team's focus on complete design-to-manufacturing solutions, DesignPoint is well positioned to represent our comprehensive range of personal and professional 3D Printers," said Michele Marchesan, Vice President and General Manager, Personal and Professional Printers, 3D Systems Corporation.

"In today's competitive climate where product development is ever changing and the demand for new and better technology drives innovation, we selected 3D Systems technologies based on our customers' need for highest resolution, fully functional prototypes and end-use parts," sited John Cioffi, President of DesignPoint. "3D Systems' technology and continued leadership in 3D content-to-print solutions mirrors our goal to offer the best service and products to our customers and help them optimize their product development process and business results."

**About 3D Systems Corporation**

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.
