3D Systems Teams Up With SolidVision

- Experienced SolidWorks VAR Adds Leading 3D Printers to Its Portfolio -

ROCK HILL, South Carolina, November 9, 2010 – 3D Systems (NASDAQ: TDSC), today announced that it added SolidVision, a recognized, successful SolidWorks Value Added Reseller to its growing network of 3D printers and solutions providers.

With a qualified team of experienced professionals SolidVision delivers comprehensive engineering solutions to leading manufacturing companies along with training for SolidWorks application software. SolidVision now provides local access to [3D Systems ProJet™](#) professional and production [3D Printers](#) throughout New England.

“We are pleased to add SolidVision, a professional, high caliber SolidWorks reseller to our network. We believe that the SolidVision team is uniquely qualified and well positioned to represent our leading Professional and Production 3D Printers,” said Michele Marchesan, vice president sales 3D Printing, 3D Systems Corporation.

“We selected 3D Systems as our partner because we wanted to offer best in class production 3D printing products and services. As the inventor of the SLA® process, 3D Systems has a breadth and depth of experience that is second to none and will allow us to serve our customers better to help reduce their engineering cycle times and increase productivity,” said Mark Sears, president, SolidVision.

3D Systems authorized channel partners sell and service the company’s growing line of personal, professional and production class 3-D printers.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

About 3D Systems Corporation

3D Systems is a leading provider of 3D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: our customers Create With Confidence.
