3D Systems Brings New RapMan™ To Market

– Popular 3D Printer Kit Gets Next-Gen Makeover –

ROCK HILL, South Carolina, November 21, 2011 – 3D Systems Corporation (NYSE: DDD) announced today the immediate availability of its next-gen RapMan™ 3.2 3D printer kit from Bits from Bytes™. RapMan™ will be on display at EuroMold in Frankfurt, Germany, November 29th – December 2nd, 2011 in Hall 11, stand F110.

The RapMan™ 3.2 is packed with new features that make it easier to own and operate, including intuitive touchscreen interface and USB file storage. Priced just under $1,300, this 3D printer kit is easy to set up and capable of printing durable, colorful, complex geometries.

"The RapMan™ 3.2 brings personal manufacturing closer to reality," said Andy McLaren, Director of Sales and Marketing, BFB™ Products, 3D Systems. "Enhanced printability together with a compelling touchscreen user experience makes this printer practical to own and fun to use. Every new 3D printer we deliver underscores our commitment to democratize access to affordable 3D content-to-print solutions for the benefit of professionals and consumers alike."

The RapMan 3.2 printer kits will be available to purchase at EuroMold (while supplies last) and from our website.

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides creative content development, design productivity tools and curation services and downloads. Its expertly integrated solutions replace, displace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, communicate, prototype and produce functional parts, empowering its customers to create with confidence.

More information on the company is available at www.3DSystems.com.
