3D Systems Marks 25 Years of Innovation

- Yearlong Events Planned to Recognize Industry
Founders and Shapers -

ROCK HILL, South Carolina, December 2, 2010 – 3D Systems (NASDAQ: TDSC) announced plans to commemorate and celebrate its 25th anniversary with a special recognition event for its key European users who pioneered the early applications of [3D Systems](#) Additive Manufacturing technology. The inaugural awards ceremony will be held this evening at the Euromold Exhibition and Conference in Frankfurt, Germany, Hall 11, D46.

Beginning today and continuing through 2011 the company plans to have a series of special events honoring the significant contributions of its pioneering inventors and early adopters who together helped revolutionize the product development process.

“Euromold is the right venue for us to mark 25 years of Additive Manufacturing innovation,” said Abe Reichental, president and CEO of 3D Systems. “We are enormously proud of our pioneers and grateful to our early adopters, who together grasped the potential of our technology and turned it into sustainable, competitive advantage for the benefit of society. We are committed to democratizing access and accelerating adoption of new 3D content-to-print innovations the world over.”

About 3D Systems Corporation

3D Systems is a leading provider of 3D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: our customers create with confidence.
